

RUTH UMWIZERWA

Software Engineering Student | Full-Stack Developer

Kigali, Rwanda | +250 798 523 923 | ruthumwizerwa@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Motivated Software Engineering student at AUCA with hands-on experience in full-stack web development, backend systems, and agile methodologies. Proficient in JavaScript, React, Node.js, Java, and MongoDB. Proven ability to build scalable applications, participate in code reviews, and resolve technical issues in fast-paced team environments.

SKILLS

- Programming Languages: JavaScript, Java, HTML, CSS3, PHP, C
- Frontend: React, Tailwind CSS, Vanilla CSS, Responsive Web Design
- Backend: Node.js, Express.js, REST APIs, Authentication
- Database: MongoDB, MySQL
- Tools & Platforms: Git, GitHub, Postman, Firebase, VS Code, NetBeans, Dev C++, Jira, Trello
- Collaboration & Workflow: Teamwork, communication, problem-solving, agile workflows, task coordination, leadership

PROJECTS

AdaptiveChat Real-Time Smart Messaging App *Node.js • Express • MongoDB • Socket.IO • JWT*

[Github](#)

- Built a resilient real-time messaging API with offline-first architecture and automatic sync on reconnection.
- Implemented Socket.IO-powered live messaging with message prioritization (Normal/Important/Urgent), typing indicators, and read receipts.
- Secured the platform with JWT authentication, bcrypt password hashing, role-based access control, and rate limiting.

RealSuccessAcademy Student Management System *Next.js • TypeScript • Tailwind CSS • Firebase*

[Github](#)

- Built a full-stack student management system with role-based dashboards for students and teachers.
- Implemented attendance tracking, leave management, reporting, and statistics features.
- Integrated secure authentication and a Firebase backend for real-time data handling.

WORK EXPERIENCE

Software Development Trainee — The Gym (Trainee Program) *• Nov 2024 – Sep 2025*

- Built full-stack web applications through a structured training program, from requirements analysis to deployment.
- Participated in GitHub code reviews and ensured features met expected requirements before completion.

- Learned and applied JavaScript, React, ES6, asynchronous programming, Tailwind CSS, and best programming practices.
- Worked in an agile setup with weekly sprints, including planning, daily stand-ups, and retrospectives.

Backend Developer — SheCanCODE Bootcamp · *Feb 2024 – Jul 2024*

- Learned JavaScript, Node.js, REST APIs, and MongoDB.
- Built key features for a project called Agrisoko, including authentication, CRUD operations, business logic, and websockets.

VOLUNTEER EXPERIENCE

Events Organizing Team Member — Gaba Rwanda · *Jan 2025 – Present*

- Turned event ideas into execution by breaking them into clear steps, responsibilities, and timelines.
- Coordinated logistics and communicated with vendors, participants, and hosts for smooth event delivery.

Coding Coach Preparatory Training Program — TheGym Gap Year in Software Engineering · *Apr – Sep 2025*

- Broke down technical concepts into simple, step-by-step lessons for complete beginners.
- Guided students through small projects, encouraging independent problem-solving over direct answers.

EDUCATION

- BSc Software Engineering — Adventist University of Central Africa (AUCA), Kigali | 2024 – Present
- Certificate: Backend Development — SheCanCODE | 2024
